THE FUTURE IN PERFECT CLARITY

INNOVATIVE ADVANCED SWIM EQUIPMENT

The MP brand creates technologically advanced, performance-enhancing swim products, driven by the ultimate desire to improve the sport of swimming. Incorporating the unique insights and exceptional real-life experience provided by Michael Phelps and Coach Bob Bowman, our products offer innovative features that work with natural body mechanics, helping competitive swimmers reach their peak performance.

Developed in Partnership
with Michael Phelps
and Coach Bob Bowman

Développés en partenariat
avec Michael Phelps et
l'entraîneur Bob Bowman

Desarrollados en colaboración
con Michael Phelps y el
entrenador Bob Bowman

Michael Phelps and Bob Bowman have arguably more experience training and competing at the highest levels of elite swimming than any other people on the planet.

En matière d'entraînement et de compétition au plus haut niveau de la natation Elite, Michael Phelps et Bob Bowman ont assurément plus d'expérience que quiconque dans le monde.

Michael Phelps y Bob Bowman son los máximos expertos en entrenamiento y competición para la natación de élite.

DES ÉQUIPEMENTS PERFECTIONNÉS ET INNOVANTS POUR LA NATATION

Motivée par une forte volonté d'améliorer ce sport qu'est la natation, la marque MP crée des produits de natation à la pointe de la technologie dans un souci d'optimisation des performances. Grâce à l'éclairage unique et à l'expérience concrète exceptionnelle fournis par Michael Phelps et l'entraîneur Bob Bowman, nos produits présentent des caractéristiques innovantes qui s'associent à la mécanique naturelle du corps pour aider les nageurs de compétition à atteindre leurs meilleures performances.

EQUIPAMIENTO AVANZADO E INNOVADOR PARA LA NATACIÓN

Con el objetivo de mejorar el deporte de la natación, la marca MP crea productos de natación tecnológicamente avanzados que permiten aumentar el rendimiento. Teniendo en cuenta los conocimientos y la excepcional experiencia de Michael Phelps y el entrenador Bob Bowman, nuestros productos ofrecen características innovadoras que se unen a la mecánica natural del cuerpo, ayudando a los nadadores de competición a alcanzar mejores resultados.

HYDRODYNAMIC

Fabric limits water absorption

AQUA-CORE

High level compression and better circulation

EXO-FOIL

3D fabric - Better range of motion and flexibility

BONDED SEAMS

Reduced drag and provide structure and support

INTERNAL SILICONE

LEG GRIPS

Ensures precise fit

MEN & JUNIOR
SIZES: 50/ 6Y - 85 (FR)

WOMEN & JUNIOR
SIZES: 24/ 6Y - 40 (FR)

Designed in France and
Manufactured in Italy

The XPRESSO competition tech suit is engineered with Aqua Sphere's exclusive Exo-Core technology – a combination of ExoFoil and Aqua Core. The combination of these two fabrics delivers the highest level of performance.

- Hydrodynamic fabric limits water absorption
- Bonded seams reduce drag and provide structure and support to the body
- Internal silicone leg grips ensure a precise fit
- Suit designed in France and manufactured in Italy

La combinaison de compétition technique XPRESSO est conçue avec la technologie exclusive d'Aqua Sphere, Exo-Core – une combinaison des technologies ExoFoil et Aqua Core, qui possèdent toutes deux leurs propriétés uniques. L'association de ces deux tissus offre un niveau de rendement plus élevé, jamais rencontré auparavant.

- Son tissu hydrodynamique limite l'infiltration de l'eau
- Ses coutures intégrées permettent de réduire la traînée et offrent support et maintien à votre corps
- Des bandes de resserrages en silicone situées au niveau de la jambe assurent un ajustement optimal
- Conçue en France et fabriquée en Italie

El traje de competición XPRESSO se elabora con la exclusiva tecnología Exo-Core de Aqua Sphere. Se trata de una combinación de las tecnologías ExoFoil y Aqua Core, ambas con características únicas. La combinación de estos dos tejidos representa un nuevo y mayor nivel de prestaciones.

- El tejido hidrodinámico limita la absorción de agua
- Las costuras lisas reducen la resistencia al agua y aportan estructura y apoyo al cuerpo
- Las bandas de sujeción internas de silicona para las piernas aseguran un ajuste preciso
- Diseñado en Francia y fabricado en Italia

The MPulse is an excellent value tech suit perfect for the budget-conscious swimmer who wants the benefits of a compression suit and comfort of a training suit. Featuring Dynamix compression textile and flat-lock stitched seams, this FINA approved suit has a hydrophobic construction to provide maximum glide efficiency and support level compression to stabilize muscles and improve circulation. Swimmers will enjoy a streamlined glide through the water, whether they're training or competing.

The sleek, minimalist design – all black with a punch of yellow – means you'll look fierce while feeling great.

La combinaison MPulse est une combinaison de compétition technique avec un excellent rapport qualité/prix, idéale pour le nageur soucieux de son budget. Elle offre les avantages d'une combinaison de compression et le confort d'une combinaison d'entraînement. Conçue avec le tissu de haute compression Dynamix aux coutures plates, cette combinaison homologuée par la FINA bénéficie de la construction hydrophobe pour améliorer l'efficacité de nage et ajuste le niveau de compression. La vibration musculaire est limitée, la circulation favorisée. Les nageurs auront plaisir à glisser plus aisément dans l'eau, que ce soit en entraînement ou en compétition. Avec son design épuré et minimaliste – tout en noir avec une pointe de jaune – vous donnera un air sauvage dans lequel vous vous sentirez bien.

- Idéale à la fois pour les nageurs débutants et expérimentés
- Hydrofuge
- Les coutures plates réduisent la traînée et améliorent l'efficacité de nage
- La doublure intérieure intégrale offre maintien et discrétion
- L'empiecement en silicone au niveau des jambes assure confort et évite la rotation du maillot
- Taille élastiquée avec cordon de serrage

- Ideal for youth and Masters swimmers
- Water repellent fabric
- Flat lock stitching reduces drag and improves swimming efficiency
- Full inner brief lining offers support and modesty
- Internal silicone leg grips ensure a precise fit
- Elastic waistband with drawstring

El MPulse es un excelente traje técnico, perfecto para el nadador que busca una excelente relación calidad/precio; y, que desea aprovechar las ventajas de un traje de compresión y la comodidad de un traje de entrenamiento. Gracias a su tejido de compresión Dynamix con costuras planas, este traje aprobado por la FINA posee una construcción hidrófoba que garantiza la máxima eficiencia en el deslizamiento; mientras que el nivel de compresión de apoyo estabiliza los músculos y mejora la circulación. Los nadadores disfrutarán de un perfecto deslizamiento en el agua, tanto si están entrenando como si están compitiendo. El diseño elegante y minimalista, todo en color negro y con un toque de amarillo, aporta un look salvaje y, a la vez, siente muy bien.

- Ideal para nadadores jóvenes y experimentados
- Tejido hidrófugo
- Las costuras planas reducen los roces y mejoran el nivel de eficiencia en la natación
- Forro interior integral que ofrece apoyo y discreción
- Zonas de adherencia de silicona, en el interior de las piernas, para garantizar un ajuste preciso
- Cinta elástica en la cintura con cordón ajustable

ELITE TRAINING

THE EVOLUTION COLLECTION

Inspired by the vibrant world around us, the Evolution Collection is infused with rich textures and artistic vibes. The bright colors of Vintage, Vital and Fusion evoke boldness, creativity and fun.

ABOUT ELITE TRAINING SUITS

- Suit prints personally selected by Michael Phelps
- Aqua Infinity fabric- technologically advanced, breathable, 100% polyester fabric that is chlorine resistant, fast-drying and has UV50+ protection
- High chlorine resistance - fabric elasticity remains the same, even after 200+ hours inside chlorinated water
- Extremely long-lasting resistance to sweat and sun creams
- Silicone straps offer better chlorine resistance and durability
- Fabric made in Italy

Inspirée par le monde vibrant qui nous entoure, la collection Evolution est imprégnée de riches textures et de vibrations artistiques. Les couleurs vives des maillots Vintage, Vital et Fusion évoquent l'audace, la créativité et le plaisir.

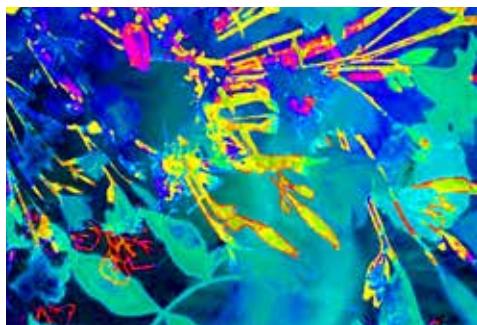

Inspirado en el vibrante mundo que nos rodea, la colección Evolution está repleta de abundantes texturas y pinceladas artísticas. Los brillantes colores de los bañadores Vintage, Vital y Fusion evocan audacia, creatividad y diversión.

MAILLOTS DE NATATION ELITE

- Gamme de maillots personnellement sélectionnée par Michael Phelps
- Tissu de pointe Aqua Infinity, matière respirante 100 % polyester, résistante au chlore, à séchage rapide et avec facteur de protection contre les rayons UV50+
- Grande résistance au chlore : l'élasticité du tissu n'est pas affectée même après plus de 200 heures dans l'eau chlorée
- Résistance extrêmement longue à la sueur et aux crèmes solaires
- Les bretelles en silicone offrent une meilleure résistance au chlore et durabilité
- Tissus fabriqué en Italie

BAÑADORES DE ENTRENO ELITE

- Estampados seleccionados personalmente por Michael Phelps
- Tejido Aqua Infinity, con tecnología avanzada, transpirable y 100% poliéster, resistente al cloro, de rápido secado y con protección solar UV 50
- Alta resistencia al cloro - la elasticidad del tejido sigue siendo la misma, incluso después de más de 200 horas dentro del agua clorada
- Resistencia extremadamente duradera al sudor y a las lociones solares
- Las cintas de silicona ofrecen una mejor resistencia al cloro y durabilidad
- Tejido fabricado en Italia

XCEED

K180

CHRONOS

TITANIUM MIRROR
"GOLD EDITION"

XCEED

THE FUTURE
IN PERFECT CLARITY

CURVED LENS

ULTRA SOFT GASKET

LOW PROFILE

4 NOSE BRIDGE SIZES

The XCEED competition goggle combines patented curved lens technology and a hydrodynamic low profile fit to give swimmers a competitive edge in perfect clarity. In addition, the XCEED Titanium Mirror is further enhanced with

a layered titanium metal coating for enhanced sun and glare protection.

- Developed with Michael Phelps and Bob Bowman
- Engineered with Exo-Core™ technology, combining two materials for maximum performance
- Ultra soft Softeril gasket provides a water tight seal and max-comfort
- Semi rigid exoskeleton maximizes the structure, strength and stability of the goggle
- Expanded field of vision allows the swimmer to sight walls and the competition without altering head position
- 180 degree panoramic vision
- Easy-adjust head strap
- 100% UV protection

Les lunettes de compétition XCEED associent une technologie brevetée de verres courbés à des lunettes hydrodynamique de forme ultra réduite afin d'offrir aux nageurs un style compétitif avec une vision parfaite.

- Leurs verres courbés brevetés pour un champ de vision élargi permet au nageur de voir les murs et la compétition sans que la position de sa tête ne soit modifiée
- La technologie Exo-Core combine deux matériaux pour des performances maximales
- Leurs micro joints comprimés offrent une étanchéité optimale et une conception très compacte
- Exosquelette semi-rigide qui renforce la résistance structurale et offre une meilleure stabilité aux lunettes
- Leur garniture Softeril résistant aux fuites ultra souple offre un maximum de confort grâce à son joint d'étanchéité
- Boucle de réglage hydrodynamique et ultra compacte pour un réglage rapide
- Boucle d'attache en silicone de haute qualité et ultra compacte pour un effet de revêtement texturé
- Verres en polycarbonate traités anti-buée
- Pont de nez ergonomique, facile à remplacer et interchangeable pour un réglage confortable et personnalisable

Las gafas de competición XCEED combinan una tecnología de lentes curvas patentada con un perfil bajo y aerodinámico, que proporciona a los nadadores una clara ventaja competitiva.

- Lentes curvas patentadas, con un campo de visión más amplio, que permite al nadador ver las paredes de la piscina y el resto de la competición, sin necesidad de modificar la posición de la cabeza
- Diseñada con la tecnología Exo-Core, esta gafa combina dos materiales para lograr el máximo rendimiento
- Microjuntas comprimidas que proporcionan un hermético sellado para hacer frente a las fugas; y con un perfil bajo y aerodinámico
- Exoesqueleto semirígido que maximiza la resistencia estructural y la estabilidad de las gafas
- Juntas ultrasuaves de Softeril que proporcionan un sellado estanco al agua y un ajuste excepcionalmente cómodo
- Hebillas hidrodinámicas de perfil bajo que permiten un rápido ajuste
- Cinta de silicona de perfil bajo y alta calidad, con efecto texturizado para mejorar la adherencia
- Lentes de policarbonato con tratamiento antivaho
- Puente nasal ergonómico, de fácil sustitución e intercambiable para un ajuste personalizado y cómodo

3 NOSE BRIDGE SIZES

Small goggle - big vision. The asymmetrical, anatomic lens design of the K180 offers a natural watertight fit with integrated curved lenses for a wide field of vision in a low profile goggle. The soft gaskets and adjustable nose bridge ensure ultimate comfort.

- Engineered with Exo-Core technology combining two materials for maximum performance
- Ultra soft Softeril gasket provides maximum comfort and a leak resistant seal
- Semi-rigid exoskeleton maximizes the structural strength and stability of the goggle
- 180-degree panoramic vision
- Anti-fog treated Polycarbonate lenses
- Anatomic lens shape for water-tight fit
- Curved lens and integrated strap loop enhances hydrodynamics
- Easy-adjust head strap
- 100% UV protection
- 3 interchangeable nose bridges
- FINA approved

Petites lunettes - grand champ de vision. Le design asymétrique et anatomic des lunettes K180 fournit une étanchéité naturelle et ses grands angles offrent un large champ de vision pour des lunettes ultra-plates. Ses joints souples et son pont de nez réglable lui procurent un confort optimal.

- La technologie Exo-Core combine deux matériaux pour des performances maximales
- Sa garniture résistante aux fuites ultra souple Softeril offre un maximum de confort grâce à son joint d'étanchéité
- Exosquelette semi-rigide renforce la résistance structurale et offre une meilleure stabilité aux lunettes
- Vision panoramique à 180 degrés
- La forme anatomique des lunettes procurent une excellente étanchéité
- Ses verres courbés et sa boucle d'attache intégrée assurent une très bonne hydrodynamique
- Courroie frontale facile à ajuster
- Protection 100 % UV
- 3 ponts de nez interchangeables

Gafa pequeña, con un amplio campo de visión. El diseño asimétrico y anatómico de la óptica de las gafas K180 presenta una estanqueidad natural, lentes curvadas integradas para ofrecer un amplio campo de visión en una gafa de perfil bajo. La junta blanda y el puente nasal ajustable aseguran un confort total.

- Fabricada con la tecnología Exo-Core que combina dos materiales para garantizar las máximas prestaciones
- La junta ultrablanda de Softeril proporciona un confort y una estanqueidad máximos
- El exoesqueleto semirrígido eleva al máximo la resistencia estructural y la estabilidad de la gafa
- Visión panorámica de 180 grados
- Forma anatómica de la lente con ajuste hermético
- Lente curvada y hebilla de correa integrada para optimizar la hidrodinámica
- Correa fácilmente ajustable
- Protección 100% contra los rayos ultravioleta
- 3 puentes nasales intercambiables

MICRO-GASKET

CUSTOMIZABLE

MP's modern take on the Swedish-style goggle. For our Swede, we didn't settle--we used our patent-pending Geoplex lens technology to offer distortion-free, superior vision in each direction. And for your long training days, you'll appreciate our Softeril micro gasket for better comfort and watertight fit. Chronos: It's about time.

- Geoplex lens technology: precise geometric and optical lens surfaces enhance front, downward, forward and lateral vision
- Expanded optically correct vision due to patent pending Geoplex lens technology
 - Forward vision due to flat, precision oriented lens surface
 - Downward and Front vision due to plain-curved lens design (patent)
 - Wide lateral vision due to perfect cylindrical geometry
- Softeril micro-gasket
- Anatomic lens shape for water-tight fit
- Polycarbonate lenses
- Easy-adjust head strap
- 100% UV protection
- Customizable nose piece
- FINA approved

L'interprétation moderne des lunettes de natation de style suédois, par Michael Phelps. Absolument sans compromis - nous avons utilisé la technologie Geoplex (brevet en cours) pour offrir une vision supérieure et sans distorsion, dans toutes les directions. Et pour vos longues journées d'entraînement, vous apprécierez le micro-joint Softeril qui vous offrira un meilleur confort et une étanchéité parfaite. Chronos : il était temps.

- La technologie des verres Geoplex : une géométrie précise et des surfaces des verres optiques qui améliorent la vision vers l'avant, vers le bas, latérale et au loin.
- Une vision optiquement correcte étendue grâce à la technologie Geoplex
- Vision lointaine améliorée grâce à la surface des vitres qui est plate et orientée avec précision
- Vision vers le bas et devant parfaite grâce à un design de verre à la courbure simple (brevetée)
- Large vision latérale du fait d'une géométrie cylindrique parfaite
- Micro-joint Softeril
- Forme anatomique des verres pour un ajustement bien étanche
- Verres polycarbonate
- Système de sangle facile à régler
- Protection UV 100 %
- Pièce nasale ajustable

Chronos es la versión moderna de las gafas de estilo sueco. Con nuestras suecas no nos conformamos y ampliamos el campo de visión de las suecas, con nuestra tecnología de lentes Geoplex, pendiente de patente. Esta exclusiva tecnología ofrece un campo de visión superior sin distorsión, en cualquier dirección. En tus entrenamientos agradecerás nuestra microjunta de Softeril, más confortable y con ajuste estanco. Chronos, el tiempo lo es todo.

- Tecnología de lentes de Geoplex, pendiente de patente: lentes ópticas con una superficie geométrica precisa que mejoran la visión frontal, hacia abajo, hacia adelante y lateral.
- Visión correcta ampliada ópticamente gracias a la tecnología de lentes Geoplex (pendiente de patente)
- Visión frontal gracias a una superficie plana de las lentes y con una orientación precisa
- Visión inferior y delantera gracias al diseño patentado de lentes curvas
- Amplia visión lateral gracias a la geometría perfectamente cilíndrica
- Microjuntas Softeril
- Lentes con forma anatómica para un ajuste estanco
- Lentes de policarbonato
- Cinta para la cabeza, sistema de fácil ajuste
- 100% protección UV
- Pieza nasal personalizable

OPTIONS DES VERRES

- Les verres bleus sont parfaits pour nager le matin ou le soir, lorsqu'une protection modérée contre les éblouissements suffit.
- Les verres jaunes améliorent la vision dans les mauvaises conditions de lumière. Ils sont idéaux pour nager en intérieur ou le soir, lorsque la luminosité est faible.
- Les verres orange améliorent la vision dans les mauvaises conditions de lumière, en vous redonnant les teintes rouges. Ils sont idéaux pour nager en intérieur ou le soir.
- Les verres fumés réduisent de façon significative la transmission de la lumière vers les yeux, ce qui les rend idéaux pour les conditions de lumière vive et de jour en extérieur.
- Les verres clairs sont idéaux pour les conditions de lumière en intérieur, faibles ou couvertes, où une visibilité maximale est requise.
- Les verres roses donnent un air à la mode, et redonnent certaines teintes rouges qui sont atténuées par le bleu de l'eau. Ils sont idéaux pour nager à l'intérieur.

OPCIONES DE LENTES

- Las lentes azules son perfectas para nadar por la mañana o por la tarde, cuando es necesario disponer de una protección moderada frente a los deslumbramientos.
- Las lentes amarillas mejoran la visión en entornos con poca luz. Son ideales para nadar en interiores o por la tarde, cuando hay poca intensidad de luz.
- Las lentes naranjas mejoran la visión en entornos con poca luz y proporcionan un color de fondo rojo. Son ideales para nadar en interiores o por la tarde.
- Las lentes ahumadas reducen, considerablemente, la transmisión de la luz hacia los ojos, por lo que son perfectas para espacios luminosos o para la luz diurna, al aire libre.
- Las lentes transparentes son ideales para zonas interiores, de baja luminosidad cuando el cielo está nublado y se requiere la máxima visibilidad.
- Las lentes rosas aportan un look más moderno y refractan mejor aciertos tonos rojos que se atenúan por el color azul del agua. Son ideales para nadar en espacios interiores.

X-O

BRT YELLOW / BLACK
SM SA122137
MD SA122138
LG SA122139

Engineered with integrated, dual-density stretch zones, stabilizing ribs, and internal dimpling, the X-O cap offers a sleek and secure fit.

- Exo-Core Technology: Combining two durometers of silicone for maximum performance
- Internal dimpling and stabilizing ribs prevent movement, wrinkling and keeps the cap in place
- Hydrodynamic 3D shape
- Works in conjunction with our performance Compression Cap to improve the hydrodynamic shape of the head
- Performance cut
- Designed in Italy

Conçu avec des zones extensibles intégrées à double densité, des coutures de stabilisation et une garniture interne, le bonnet X-O présente une coupe épurée et une bonne tenue.

« La coupe du bonnet X-O est parfaite. Il ne bouge pas et il ne se froisse pas. Il ne couvre pas complètement mes oreilles, donc il ne m'empêche pas d'entendre. » - Michael Phelps

- Technologie Exo-Core : associe deux épaisseurs de silicone pour des performances optimales
- Une garniture interne et des coutures de stabilisation empêchent tout froissement et permettent un bon maintien du bonnet
- Forme hydrodynamique 3D
- S'utilise avec notre bonnet de compression de performance pour renforcer la forme hydrodynamique de la tête
- Coupe haute performance
- Packaging rigide réutilisable
- Conçu en Italie
- Sans latex

Diseñado con zonas elásticas integradas y de doble densidad, nervaduras estabilizadoras y canales internos, el gorro X-O ofrece un ajuste seguro y un look elegante.

“El diseño del gorro X-O es perfecto. No se mueve ni se arruga. No queda completamente sobre mis orejas, por lo que puedo oír.” - Michael Phelps

- Tecnología Exo-Core: Combina dos espesores de silicona para el máximo rendimiento
- Canales internos y nervaduras estabilizadoras que impiden el movimiento y las arrugas, manteniendo el gorro en su posición
- Forma 3D hidrodinámica
- Se recomienda utilizarlo con nuestro gorro de compresión para mejorar la hidrodinámica de la cabeza
- Diseñado para un mayor rendimiento
- Estuche rígido reutilizable
- Diseñado en Italia
- Sin látex

BUILD STRENGTH AND MAINTAIN FEEL

Developed in Partnership
with Michael Phelps
and Coach Bob Bowman

"The Strength Paddles are one of my favorite tools that we've developed, because they basically give you the feel of the hand and the way it is when it's swimming because of the raised portion under the palm of your hand. It's not a flat surface. You're actually in a much more natural position."
- Coach Bob Bowman

Cette plaquette d'entraînement est un accessoire résistant de haute performance qui permet un contact naturel avec l'eau, en raison de sa forme et de ses supports pour paumes surélevés.

- Conçue pour imiter la structure osseuse naturelle de la main pour un mouvement de traction plus naturel
- Les trous d'aération et les supports de poignets renforcent les sensations avec l'eau
- Son bracelet ergonomique et sa boucle pour le doigt sont entièrement réglables, ultra résistants et lui offre un design profilé
- Disponible en 3 tailles

La pala Strength Paddle es un accesorio de resistencia, de alto rendimiento que proporciona una sensación natural en el agua, gracias a su forma y apoyos elevados en la palma.

- *Diseñada para imitar la estructura natural del hueso de la mano y conseguir una impulsión más natural*
- *La ventilación y las huellas mejoran las sensaciones en el agua*
- *El brazalete ergonómico y el anillo para el dedo son totalmente ajustables, duraderos y aerodinámicos*
- *Disponible en 3 tallas*

TECHNIQUE PADDLE

VERTICAL ARM TECHNIQUE

Structural design promotes proper vertical forearm technique

ALTERNATIVE HAND POSITIONS

Closed and Open Hand Positions

NATURAL FEEL OF WATER

Vent holes provide a natural feel of the water

PADDLE MADE OF RIGID PP

PP - Polypropylene

SILICONE TUBE STRAPS

IMPROVE TECHNIQUE AND STROKE MECHANICS

Developed in Partnership with Michael Phelps and Coach Bob Bowman

Technique **Regular** ST132111

"The MP Technique Paddle ensures – more than any other paddle – that my swimmers strictly focus on technique and stroke mechanics."

- Coach Bob Bowman

- Design prevents swimmer from bending at the wrist & dropping the elbow
- Structural design promotes proper vertical forearm technique
- Vent holes provide a natural feel of the water
- Design provides alternative hand positions (closed or open)

Our inventive Technique Paddle is your new training must-have. The Paddle helps to improve your pulling technique (wrist, forearm, and elbow alignment), with its easy-to-use, Coach Bowman-inspired design and innovative, natural shape.

Inspirée par l'entraîneur Bob Bowman, notre "Technique Paddle" est le nouvel accessoire indispensable et intuitif pour votre entraînement. Cette plaquette vous aide à améliorer votre technique de traction (alignement du poignet, de l'avant-bras et du coude) grâce à sa forme naturelle et innovante, facile d'utilisation.

- Sa conception empêche le nageur de plier le poignet et de laisser descendre le coude
- Sa structure favorise une technique verticale de l'avant-bras
- Les orifices permettent une meilleure sensation grâce au contact avec l'eau
- Son design permet des positions différentes de la main (fermée ou ouverte)

Inspirada por el entrenador Bob Bowman, la "Technique Paddle" es el nuevo accesorio, indispensable para el entrenamiento. La pala mejora la técnica de remo (alinea la muñeca, el antebrazo y el codo), gracias a su forma natural e innovadora, de fácil uso.

- El diseño evita que el nadador doble la muñeca y descienda el codo
- Su diseño estructural promueve una adecuada técnica vertical del antebrazo
- Los orificios de ventilación proporcionan una sensación natural en el agua
- El diseño permite posiciones alternativas de las manos tanto abiertas como cerradas

FOCUS RESTRICTOR CAP

- Improve Lung Capacity
- Increase Cardiovascular Strength
- Place in barrel to restrict breathing by 40%
- Fits regular fit and small fit Focus Snorkels
- Constructed of durable synthetic material

- Unique, low-profile, hydrodynamic tube reduces drag and eases breathing
- Increases cardiovascular strength and lung capacity
- Adjustable lightweight head bracket with integrated cushion ensures comfortable fit
- Silicone Comfo-Bite mouthpiece minimizes jaw fatigue
- One-way purge valve positioned to maximize clearing of excess water
- Triangular tube shape inhibits side-to-side rotation
- Offered in regular fit and small fit

Le tuba d'entraînement Focus présente un profil unique et élancé qui a été étudié pour garantir un confort et une durabilité maximale, permettant au nageur de se concentrer uniquement sur sa technique et la bonne position de son corps, en éliminant tous les efforts de mouvements respiratoires.

- La conception hydrodynamique de ce tuba unique de profil bas réduit la traînée et libère la respiration
- Il permet d'augmenter la force cardio-vasculaire et la capacité pulmonaire
- Il contient un serre-tête ajustable en matière légère avec coussinets intégrés pour un maintien parfait
- Les embouts Comfo Bite en silicone minimisent la fatigue de la mâchoire
- Une vanne de purge à sens unique est placée de manière à maximiser l'évacuation du surplus d'eau
- Disponible en deux tailles : Large et Small

Le restricteur a été conçu pour réduire la respiration de 40 %, afin d'augmenter la force cardio-vasculaire et la capacité pulmonaire.

- Réduit la respiration de 40 %
- Convient aux tubas Focus
- Conçu en matière synthétique durable

and Coach Bob Bowman

SMALL FIT

FOR YOUTH SMALL ADULTS
Height, Mouthpiece and Tube Area :
About 10% smaller

El tubo de entrenamiento Focus presenta un diseño discreto y exclusivo, para la máxima comodidad y durabilidad. Permite al nadador centrarse únicamente en la técnica y en la posición adecuada del cuerpo, eliminando el movimiento respiratorio.

- Tubo exclusivo, discreto e hidrodinámico que reduce la resistencia al agua y facilita la respiración
- Incrementa la fortaleza cardiovascular y la capacidad pulmonar
- Soporte ligero y ajustable con almohadilla integrada que asegura un máximo confort
- Boquilla Comfo-Bite de silicona para reducir la fatiga de la mandíbula
- Válvula de purga unidireccional ubicada para una máxima eliminación del exceso de agua
- Disponible en talla grande y pequeña

La terminación especial Focus ha sido diseñada para reducir la respiración en un 40 %, aumentar la resistencia cardiovascular y desarrollar la capacidad pulmonar.

- Limita la respiración un 40 %
- Se adapta a los tubos Focus
- Fabricado con material sintético de gran durabilidad

ALPHA PRO FIN

ASYMMETRICAL DESIGN

Allows for a natural kicking motion

70% LIGHTER

Lighter than traditional rubber swim fins, providing comfort and improved body positioning

SHORT BLADE

Mimics race pace kicking tempo

RIGID EVA FOAM

XXL	ST142125

- Asymmetrical design provides natural kicking motion
- 70% lighter than traditional rubber swim fins, providing comfort and improved body positioning
- Short blade mimics race pace kicking tempo
- Rigid EVA foam construction ensures enhanced propulsion

Alpha Pro Fins are 70% lighter than the traditional swim fins and designed to mimic a swimmer's natural competitive kicking tempo with an asymmetrical short blade design.

70 % plus légères que les palmes de natation traditionnelles, l'Alpha Fin Pro a été conçue pour imiter le rythme de battement des jambes naturel d'un nageur, avec une pale courte asymétrique.
 • Design asymétrique pour des battements de jambes naturels
 • 70 % plus légères que les palmes de natation traditionnelles en caoutchouc, elles offrent un meilleur confort et une meilleure position du corps
 • Sa pale courte imite le rythme des battements effectués lors d'une compétition
 • Sa structure en mousse EVA garantit une meilleure propulsion

Las Alpha Pro son el 70% más ligeras que las aletas de natación tradicionales; y han sido diseñadas para imitar el ritmo natural de la patada, gracias al diseño corto y asimétrico de la pala.
 • Diseño asimétrico que emula el movimiento natural de la patada
 • El 70% más ligeras que las aletas de natación tradicionales de caucho, son más confortables y mejoran la posición del cuerpo
 • Pala corta que imita el ritmo de patada de competición
 • Construcción en espuma rígida que garantiza una mayor propulsión

- Matériau extérieur antidéchirures polyester Diamond 420 D
- Compartiments principaux extensibles
- Poche intérieure pour ordinateur portable et poches d'organisation
- Poche avec accès facile sur le devant
- Poche séparée au fond pour les chaussures
- Rabat anti-pluie caché
- Rabat de compression
- Sangle de ceinture en maille aérée, avec poches à glissière
- Sangles d'épaule ultra légères
- Coussinets dorsaux permettant la circulation d'air
- Poches latérales pour bouteilles d'eau
- Sangle pectorale avec boucle rapide
