SWIM GOGGLES

The genesis of Phelps Swimming is in our swim goggles. Developed from Aqua Sphere's premium swim optics and created, tested and validated by Michael Phelps. The difference starts with unrivaled visibility, comfort and sleek hydrodynamics, giving you the assurance you need to compete at your highest of heights. Our focus is delivering optimal clarity to suit every type of swimming condition.

phelps

MADE IN ITALY

Born in 1998 in Genoa, Italy, Aqua Sphere began a quest to create the most comfortable eye wear for swimming. The innovative seal swim mask was truly revolutionary, introducing unparalleled peripheral vision with its curved lens technology, easy-to-adjust straps, and long lasting comfort. Phelps continues to lead the industry, developing technologies that improve performance, fit, and comfort in any use, casual or athletic. **“Made In Italy with Aqua Sphere Technology”** equals superior research, craftsmanship and design.

Note: Chronos made in China

CURVED LENS TECHNOLOGY

Our curved lens technology offers the clearest possible visibility through superior optics engineering based on 3 key placed radii, virtually eliminating distortion while delivering an uninterrupted, 180° wide field of vision with exceptional hydrodynamics.

AVAILABLE IN: ALL GOGGLES

FACIAL GEOMETRY

No two faces are alike. Understanding facial geometry is both an art and a science. Every year, the Italian design team continues to refine and improve the fit of our masks and goggles. Phelps eye protection offers an optimized fit, unequaled comfort and performance to the widest possible range of facial shapes.

INTERCHANGEABLE NOSE BRIDGE

Again, no two faces are alike, specifically in the nose bridge area are where most of the differences lie. Providing a customizable fit allows swimmers to find a nose bridge that works well for their face width and eye position. Depending on the model Phelps provides 3 and 4 different sized bridges that can be interchanged to provide the perfect comfortable fit and leak free seal.

AVAILABLE IN: NINJA, XCEED, K180

EXO-CORE TECHNOLOGY

Exo-Core is the evolution of Aqua Sphere best selling technology. The new bi-material frame technology combines exceptional stability with maximum comfort. The two are a marriage of a (1) semi-rigid exoskeleton for lens protection and structure paired with an integrated, (2) ultra soft Softeril material to offer a streamlined, lightweight design with enhanced durability.

AVAILABLE IN: NINJA, XCEED, K180

PHELPS LENSES MADE WITH AQUA SPHERE TECHNOLOGY

AVAILABLE LENS OPTIONS

Titanium Mirror coating maximizes light perception together with sun light protection.

A layered titanium metal coating for enhanced sun and glare protection for maximum visibility in bright conditions. Enhances warm colors.

A layered titanium metal coating for enhanced sun and glare protection for maximum visibility in bright conditions. Gives back red colors.

A layered titanium metal coating for enhanced sun and glare protection for maximum visibility in bright conditions. Filters water and green colors.

A layered titanium metal coating for enhanced sun and glare protection for maximum visibility in bright conditions. For high contrast.

A layered "Iridescent" titanium metal coating for enhanced visibility in low light - outdoor conditions.

A layered "Iridescent" titanium metal coating for enhanced visibility in low light conditions and indoor pools.

The metalized coating is typically applied on top of a smoke lens, resulting in maximum reduction of light transmission to the eye. This lens provides the highest light filtering dedicated for sunny outdoor conditions. This technology available in Mirror, Titanium Mirror and Titanium Iridescent Mirror.

Polarized lenses filter bright reflections to provide anti-glare properties & enhanced contrast.

The most advanced Polarized Plexisol lens technology has specially bonded 4 layers of lamination which offers improved light filtration as well as durability and longevity.

Transmits a natural light, which makes it ideal for low light and overcast conditions where maximum visibility is required. Indoor pools and dark conditions.

Blue lenses are perfect for morning or evening swims for moderate glare protection.

Significantly reduces light transmission to the eyes making it ideal for bright light and outdoor daily conditions.

Violet lenses are fashionable and perfect for morning or evening swims for moderate glare protection.

Pink lenses give a fashionable look and replaces some blue water for red. Ideal for indoor swimming.

Provides excellent vision in both high and low light environments. In low level light amber lenses amplify the light offering clearer vision. In high light levels it reduces glare.

Green lenses are perfect to relax your eyes in poor light environment. Ideal for indoor or overcast swimming.

Yellow lenses enhances vision in poor light environment. They are ideal for indoor or evening swims.

BUCKLE SYSTEM

Phelps Buckle Systems are simple to operate. Micro adjustments allow for the precise tension and most comfortable fit without need for over-tightening. The combination of our facial geometry research, advanced materials and amazingly simple-to-operate buckle systems guarantee you the perfect, leak-free fit every time.

NEW

RACE FIT TECHNOLOGY

New for 2020 is the NINJA - Race Fit System. One Lifetime low-profile strap adjustment system paired with a high-quality, low profile Silicone strap. Set it and forget it - never change the fit again, providing "The Perfect Fit Every Time."

AVAILABLE IN: NINJA COMPETITION GOGGLE

Customize your ideal fit

Multi-position 2-piece strap

'Set It and Forget It'

E-Z ADJUST BACK STRAP BUCKLE

A low-profile pull strap adjustment is the natural evolution of our signature buckle systems - simple to operate allowing a comfortable and smooth transition.

AVAILABLE IN: TIBURON, TIBURON JR, TIBURON KIDS

GOGGLE TECHNOLOGY

ANTI FOG

Lenses are protected by special anti-fog and anti-scratch treatments.

LATEX FREE

All Phelps eye protection materials are hypoallergenic and latex free.

UV PROTECTION

UV Protection technology is used to make lenses that cut UV frequencies.

RACE FIT STRAP SYSTEM

Set it and forget it! Customize the strap to your personal fit preference and never worry about it slippage or adjustments again. Available on Ninja.

GEOPLEX LENS

Precise geometric and optical lens surfaces enhance front, downward, forward and lateral vision. Available on Chronos.

OPTICS READY

Eagle Optics diopter lenses for the Eagle goggle
Available Separately from ranges -1.5 to -6.0.

SILICONE

Surgical grade Silicone provides optimum, long-lasting comfort and product longevity. Available in all straps and some gaskets.

SOFTERIL

A proprietary material substantially softer and gentler to the face versus the traditional TPR (Thermoplastic Rubber) materials used by the competition.

POLYCARBONATE LENS

Six times lighter than glass, ultra durable with superior optic qualities.

PLEXISOL LENS

Sourced in Italy with excellent anti-fog properties. Ten times stronger than glass and 100 times lighter, Plexisol is ultra durable and distortion free.

COMPACT FIT

The width of the nose bridge is smaller than regular adult sizes,
For smaller faces.

COMPETITION

SERIES

A dedication to creating the best equipment there is. Hydrodynamic, performance driven, technologically advanced and easy to use.

For those looking to get faster or gain an edge over the competition.

PHANTOM SPEEDSUIT

ELITE TRIATHLETE SPEEDSUIT

MEN

WOMEN

- **Exo-Core technology**
combines 2 kinds of fabrics for compression and freedom of movement
- **Aqua Core high compression panels**
conserves quads during swim
- **Integrated Core Power system**
improves posture and core stability
- **High frequency welded seams**
deliver optimum hydrodynamics, comfort, and anti-chafing
- **Water repellent treatment**
for superior glide
- **Locking zipper**
feature on the back of the suit helps to reduce drag. Seams have been thermo bonded to ensure comfort and help prevent chafing

The Phantom Speedsuit is engineered with Phelps exclusive Exo-Core technology, a combination of Exo-Foil and Aqua Core in relationship with Triathlon Wetsuit Core Power System. The innovation provides the Elite Triathlete an amazing new swim sensation that conserves their core leg and back muscles while maintaining freedom of movement and allowing them to reach their utmost potential.

AQUA SKIN TECHNOLOGIES

- **DURA GLIDE SKIN NEOPRENE**
1.5mm Glide Skin neoprene. Ultra soft for comfort, water repellent and fast drying

- **SUPER STRETCH**
Super stretch fabric

- **BLIND STITCHED**
Watertightness given by panels glued and blind stitched

- **QUICK DRYING**
Fast drying material

- **THERMO GUARD**
Thermo Guard technology - Warmth, maximum flexibility and range of motion in the shoulders legs and chest

- **AQUA FLEX COLLAR**
Double lock neck with Aqua Grip seal - Double layer maximizes comfort keeping water out of the suit

- **UV PROTECTION**
100% UVA / UVB protection

TRIATHLETE WETSUIT TECHNOLOGIES

- **QUICK DRYING**
Quick drying with super stretch fabric

- **BOOSTER PAD**
Strategically positioned sections of the forearm, externally coated with a super-stretch material engineered to increase traction during the pull phase of the stroke, maximizing forward propulsion

- **CORE POWER SYSTEM**
Internal-Adjustable belt support - Improves posture enhancing hip rotation and lengthens stroke

- **BIO- STRETCH ZONE**
Strategically placed 1.5mm - 2mm stretch zone - Allows for max range of motion

- **THERMO GUARD**
Thermo Guard technology - Warmth, maximum flexibility and range of motion in the shoulders legs and chest

- **100% UV PROTECTION**
100% UVA/UVB protection

- **AQUA FLEX COLLAR**
Watertight seal with maximum comfort through its double layer, ultra-fine design which minimizes neck chaffing

- **YKK ZIPPER WITH LEASH**
Extended length, YKK zipper with leash for easy on/off and quick transitions

YAMAMOTO 40

Super stretch, SCS-Coated Yamamoto 40 Neoprene for ultimate comfort
Available in: Phantom, Racer

YAMAMOTO 39

Super stretch, SCS-Coated Yamamoto 39 Neoprene for ultimate comfort
Available in: Phantom, Racer

YAMAMOTO 38

Super stretch, SCS-Coated Yamamoto 38 Neoprene for ultimate comfort
Available in: Pursuit

GEAR

The Phelps range of performance swim equipment is built with one objective: to help you train at an elite level so that you can compete to win, just like Michael. Each piece is crafted with a specific purpose, giving you the ability to customize your workouts and training sessions to build strength & stamina, isolate muscle groups, improve your technique and increase overall speed.

FOCUS SWIM SNORKEL

INCREASE CARDIOVASCULAR STRENGTH AND LUNG CAPACITY

SMALL FIT

For Youth and small adults. Height, mouthpiece and tube area about 10% smaller

- **Unique Low Profile**
Hydrodynamic tube reduces drag and eases breathing
- **Head Bracket**
Adjustable, lightweight with integrated cushion ensures comfortable fit
- **Silicone Comfo-Bite Mouth piece**
Minimizes jaw fatigue
- **One Way Purge Valve**
Positioned to maximize clearing of excess water
- **Triangular tube shape**
Inhibits side-to-side rotation
- **Offered in regular fit and small fit**

The Focus swim training snorkel features a unique, low-profile design that has been engineered for maximum comfort and durability, allowing the swimmer to focus solely on technique and proper body position by eliminating breathing motion.

STRENGTH PADDLE

BUILD STRENGTH AND MAINTAIN FEEL

- **Bones structure mimics natural hand position**
- **Vents and palm risers enhance feel for the water**
- **Ergonomic wrist strap and finger loop**
fully adjustable, durable and streamlined
- **POM - rigid thermo-plastic**
- **TPR - Thermoplastic rubber straps**
- **Available in 3 sizes**
(Small, Regular, Large)

The Strength Paddle is a high-performance resistance tool that provides a natural feel of the water thanks to its shape and raised palm supports.

TECHNIQUE PADDLE

IMPROVE TECHNIQUE AND STROKE MECHANICS

- **Design prevents swimmer from bending at the wrist & dropping the elbow**
- **Structural design promotes proper vertical forearm technique**
- **Vent holes provide a natural feel of the water**
- **Design provides alternative hand positions (closed or open)**
- **Paddle made of rigid PP - Polypropylene**
- **Silicone tube straps**
- **Developed in Partnership with Michael Phelps and Coach Bob Bowman**

Our inventive Technique Paddle is a training must-have. The paddle helps to improve your pulling technique (wrist, forearm, and elbow alignment), with its easy-to-use, Coach Bowman-inspired design and innovative, natural shape.
