SWIM GOGGLES

The genesis of Phelps is in our swim goggles. Developed from Aqua Sphere's premium swim optics and created, tested and validated by Michael Phelps. The difference starts with unrivaled visibility, comfort and sleek hydrodynamics, giving you the assurance you need to compete at your highest of heights. Our focus is delivering optimal clarity to suit every type of swimming condition.

A dedication to creating the best equipment there is. Hydrodynamic, performance driven, technologically advanced and easy to use.

The Phelps Brand products are best suited for those looking to get faster or gain an edge over the competition.

phelps

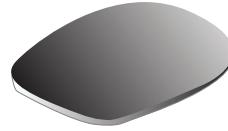

PHELPS LENSES MADE WITH AQUA SPHERE TECHNOLOGY

AVAILABLE LENS OPTIONS

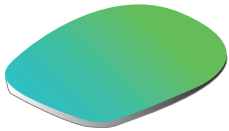

SILVER MIRRORED

- Provides the maximum light filtering during very extreme bright conditions. Maximum protection against harmful UV and infrared rays.
- **Environment:** Bright outdoor sunny swimming

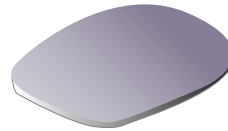

SMOKE TINTED

- Significantly reduces light transmission to the eyes while maintaining natural contrast and color saturation making the lens a perfect all-around choice.
- **Environment:** Ideal for sunny outdoor swimming and bright light conditions.

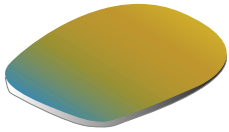

GREEN TITANIUM MIRRORED

- Ideal option for open water swimming, offering sun and glare protection providing maximum visibility in bright conditions.
- **Environment:** Outdoor swimming in sunny conditions.

BLUE IRIDESCENT TITANIUM

- Specifically designed to enhance visibility in low light conditions. Great versatile lens to use during outdoor overcast days or indoors.
- **Environment:** Ideal for overcast conditions and indoor swimming.

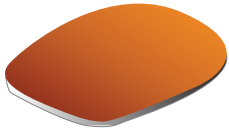

GOLD TITANIUM MIRRORED

- Offers sun and glare protection providing maximum visibility during bright conditions and on those cloudy days with lots of reflective glare.
- **Environment:** Outdoor sunny or cloudy; and for indoor swimming with a lot of artificial light

BLUE TINTED

- Blue tint lenses are considered a great all-around lens option as they reduce glare during foggy, misty days and offer good UV filtering.
- **Environment:** Best for indoor swimming, and low light conditions.

ORANGE TITANIUM MIRRORED

- Offers sun and glare protection for maximum visibility in bright conditions and cloudy days with lots of reflective glare. Enhances color contrast and shape definitions.
- **Environment:** Ideal for outdoor swimming in sunny conditions.

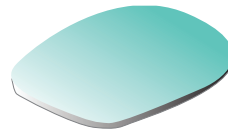

PINK TINTED

- Pink lenses help reduce excess light and increase contrast between green and blue objects and color perception, helping enhance colors seen under the water.
- **Environment:** Best for indoor swimming and early morning swimming.

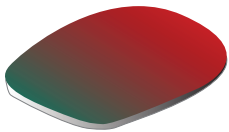

BLUE TITANIUM MIRRORED

- Delivers maximum contrast and enhances warm colors in full sun while eliminating reflective glare. Perfect lens to spot the buoys out on the open water.
- **Environment:** Outdoor swimming in sunny conditions.

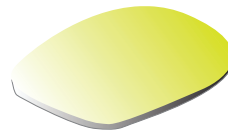

GREEN TINTED

- Green lenses help relax the eye and increase contrast during medium to low light conditions.
- **Environment:** Best for indoor swimming and outdoor during cloudy days.

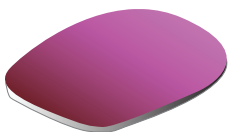

RED TITANIUM MIRRORED

- The moment you go under the water you lose visibility to red colors. This lens gives back the red colors, providing a full spectrum of color visibility while in the water. Offers sun and glare protection.
- **Environment:** Ideal for outdoor swimming in sunny conditions.

YELLOW TINTED

- Yellow lenses increase color contrast in low level light.
- **Environment:** Best for indoor swimming and outdoor during cloudy days.

PINK TITANIUM MIRRORED

- Offers sun and glare protection for maximum visibility in sunny conditions. Enhances color contrast against the blue water and relaxes the eyes.
- **Environment:** Ideal for outdoor swimming in sunny conditions.

CLEAR

- Clear lens transmits a natural light, making it ideal for low light and indoor conditions for maximum visibility.
- **Environment:** Ideal for indoor swimming and outdoors during cloudy days.

GOGGLE TECHNOLOGY

ANTI FOG
 ANTI FOG
 Lenses are protected by special anti-fog and anti-scratch treatments.

GEOPLEX LENS
 GEOPLEX LENS
 Precise geometric and optical lens surfaces enhance front, downward, forward and lateral vision. Available on Chronos.

POLY CARBONATE
 POLYCARBONATE LENS
 Six times lighter than glass, ultra durable with superior optic qualities.

LATEX FREE
 LATEX FREE
 All Phelps eye protection materials are hypoallergenic and latex free.

OPTIC
 OPTICS READY
 Eagle Optics diopter lenses for the Eagle goggle. Available Separately from ranges -1.5 to -6.0.

COMPACT
 COMPACT FIT
 The width of the nose bridge is smaller than regular adult sizes, For smaller faces.

UV PROTECTION
 UV PROTECTION
 UV Protection technology is used to make lenses that cut UV frequencies.

100% SILICONE
 SILICONE
 Surgical grade Silicone provides optimum, long-lasting comfort and product longevity. Available in all straps and some gaskets.

PLEXISOL
 PLEXISOL LENS
 Sourced in Italy with excellent anti-fog properties. Ten times stronger than glass and 100 times lighter, Plexisol is ultra durable and distortion free.

RACE FIT
 RACE FIT STRAP SYSTEM
 Set it and forget it! Customize the strap to your personal fit preference and never worry about it slippage or adjustments again. Available on Ninja.

ULTRA SOFT
 SOFTERIL
 A proprietary material substantially softer and gentler to the face versus the traditional TPR (Thermoplastic Rubber) materials used by the competition.

EXO CORE
 EXO-CORE™ TECHNOLOGY
 Combines two materials for maximum performance
 (1) Softeril Anatomical Gasket
 (2) Semi-rigid exoskeleton

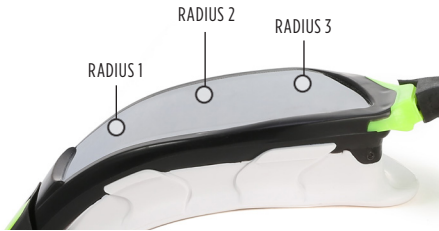

MADE IN ITALY

Born in 1998 in Genoa, Italy, Aqua Sphere began a quest to create the most comfortable eye wear for swimming. The innovative seal swim mask was truly revolutionary, introducing unparalleled peripheral vision with its curved lens technology, easy-to-adjust straps, and long lasting comfort. Phelps continues to lead the industry, developing technologies that improve performance, fit, and comfort in any use, casual or athletic. **“Made In Italy with Aqua Sphere Technology”** equals superior research, craftsmanship and design.

Note: Chronos made in China

CURVED LENS TECHNOLOGY

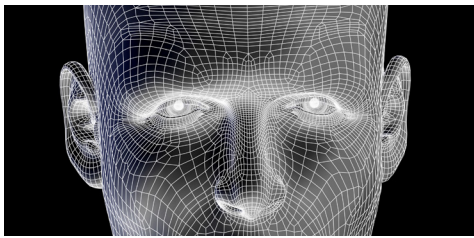

Our curved lens technology offers the clearest possible visibility through superior optics engineering based on 3 key placed radii, virtually eliminating distortion while delivering an uninterrupted, 180° wide field of vision with exceptional hydrodynamics.

AVAILABLE IN: ALL GOGGLES

FACIAL GEOMETRY

No two faces are alike. Understanding facial geometry is both an art and a science. Every year, the Italian design team continues to refine and improve the fit of our masks and goggles. Phelps eye protection offers an optimized fit, unequaled comfort and performance to the widest possible range of facial shapes.

INTERCHANGEABLE NOSE BRIDGE

Again, no two faces are alike, specifically in the nose bridge area are where most of the differences lie. Providing a customizable fit allows swimmers to find a nose bridge that works well for their face width and eye position. Depending on the model Phelps provides 3 and 4 different sized bridges that can be interchanged to provide the perfect comfortable fit and leak free seal.

AVAILABLE IN: NINJA, XCEED

E-Z ADJUST BACK STRAP BUCKLE

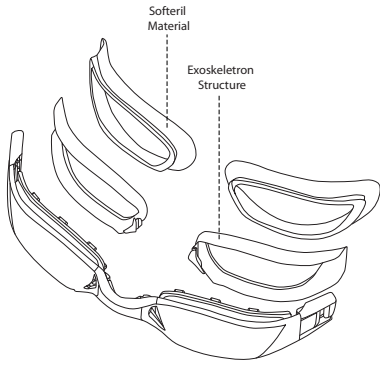

A low-profile pull strap adjustment is the natural evolution of our signature buckle systems - simple to operate allowing a comfortable and smooth transition.

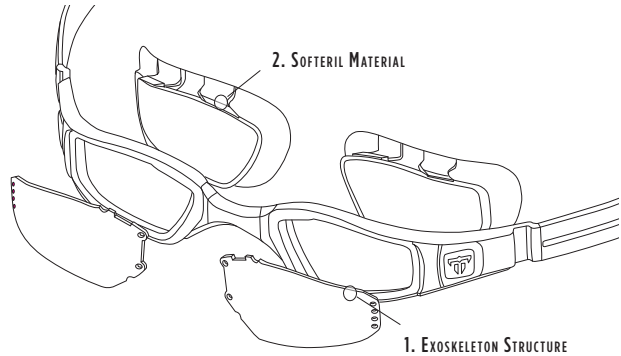

AVAILABLE IN: XCEED, CHRONOS, TIBURON, TIBURON JR, TIBURON KIDS

EXO-CORE™ TECHNOLOGY

EXPANDED VIEW OF XCEED GOGGLE

EXPANDED VIEW OF NINJA GOGGLE

Exo-Core™ is Aqua Sphere's best-selling technology. The bi-material frame technology combines exceptional stability with maximum comfort. The two materials are a marriage of:

- Semi-rigid exoskeleton for lens protection and integrated structure
- Ultra soft Softeril material offers a streamlined, lightweight design with enhanced durability
- Available in: Xceed

Exo Core™ 2.0 is an evolution of the Exo-Core Technology providing an even more compact structure due to the innovative polymer material and thinner lenses.

- Wider field of vision and more advanced streamlined shape
- Lighter weight material with enhanced durability
- Available in: Ninja

NEW

RACE FIT SYSTEM

New for 2020 is the NINJA - Race Fit System. One Lifetime low-profile strap adjustment system paired with a high-quality, low profile Silicone strap. Set it and forget it - never change the fit again, providing "The Perfect Fit Every Time."

AVAILABLE IN: NINJA

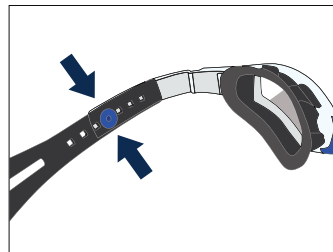

Customize your ideal fit

Multi-position 2-piece strap

'Set It and Forget It'

NINJA

THE PERFECT FIT EVERY TIME

- **Made in Italy with Aqua Sphere technology**
- **Developed with Michael Phelps and Bob Bowman**
- **Race Fit Strap System**
One time, low-profile strap adjustment system
High-quality, low profile Silicone strap
- **Curved Lens Technology**
for expanded field of vision allows the swimmer to sight walls and the competition without altering head position
- **Exo-Core™ 2.0 Technology**
The evolution of Exo-Core Technology
- **Ultra soft Softeril gasket**
provides a watertight seal and maximum comfort
- **Anti-fog treated Plexisol lenses**
- **UV Protection**
- **4 Interchangeable Nose Bridge**
Ergonomic, easy to replace, nose bridge for a customizable, comfortable fit
- **FINA Approved**

The revolutionary Ninja goggle combines a patented frame technology and a hydrodynamic low profile fit offering giving swimmers a competitive edge with the light weight, streamlined goggle. The patented "Set it and forget it" strap system offers swimmers a hassle-free experience so they can simply set the strap once and focus on swimming fast.

MATRIX TECH-SUIT - MEN

COMPETITION SUIT FOR ELITE PERFORMERS

- **Adapted Compression Material**
Striped fabric provides high level of compression and one-way progressive stretch (vertical) = Reduced vibration
53% Polyamide / 33% Elastane / 13% Polyester / 1% Metal
- **Jacquard Material**
4-way stretch allows for maximum muscle flexibility
55% Polyamide / 45% Elastane
- **Exo-Core technology**
combines 2 kinds of fabric for compression and freedom of movement
Jacquard (3D) and Flat-Adapted Compression (stripes)
- **Sustaining Tape System**
Improved body position with more horizontal buoyancy utilizing front and back axis tape, cross-coordinating to improve length and position of body
- **Water Repellent Fabrics**
Overall velocity improvement due to less drag = faster swim times
- **FINA Approved**
- **Sizes: 50-85 (Int.)**

The Matrix Tech Suit is a top-of-the-line FINA-approved competitive tech suit created with propriety Exo-Core technology. The Matrix Tech Suit features both adaptive compression material to reduce muscle vibration and drag while ensuring maximum flexibility and freedom of movement. In addition, the Matrix includes a sustaining tape system for improved body position by utilizing front and back axis tape and cross-coordinating to improve length and position.

This print features the powerful symbols of Japanese tattoos such as the koi carp and the waves. They bring strength to who wear them. While being traditional, tattoos are still a subversive matter in Japan. Will you dare wearing it?

MATRIX & XPRESSO TECH SUIT - SIZING

- **A - WAIST:**
Measure around your torso at the narrowest part.
- **B - HIPS:**
Measure around your hips at the widest part.
- **C - CHEST:**
Measure across your back and over the fullest part of your bust.
- **D - BODY LOOP:**
From the top of your shoulder, pass diagonally across the body, through your legs, and back up to the shoulder.

NOTE: THIS CHART IS INTENDED TO BE USED AS A GENERAL SIZING GUIDELINE.
We recommend that swimwear should be tried on each individual swimmer to ensure a perfect fit.

GEAR

The Phelps range of performance swim equipment is built with one objective: to help you train at an elite level so that you can compete to win, just like Michael. Each piece is crafted with a specific purpose, giving you the ability to customize your workouts and training sessions to build strength & stamina, isolate muscle groups, improve your technique and increase overall speed.

FOCUS SWIM SNORKEL

INCREASE CARDIOVASCULAR STRENGTH AND LUNG CAPACITY

NEW COLORS

SMALL FIT

For Youth and small adults. Height, mouthpiece and tube area about 10% smaller

- **Unique Low Profile**
Hydrodynamic tube reduces drag and eases breathing
- **Head Bracket**
Adjustable, lightweight with integrated cushion ensures comfortable fit
- **Silicone Comfo-Bite Mouth piece**
Minimizes jaw fatigue
- **One Way Purge Valve**
Positioned to maximize clearing of excess water
- **Triangular tube shape**
Inhibits side-to-side rotation
- **Offered in regular fit and small fit**

The Focus swim training snorkel features a unique, low-profile design that has been engineered for maximum comfort and durability, allowing the swimmer to focus solely on technique and proper body position by eliminating breathing motion.
